

The VoCare Vitals360® device utilizes cellular connectivity and comes pre-configured with a data plan through our partner Aeris Communication allowing readings to be taken even without a Wi-Fi connection. The standard North American SIM card allows automatic connection to the best signal connection with AT&T, T-Mobile, Sprint and US Cellular in the geographies of United States, Puerto Rica, Mexico and Canada. International plans are available with competitive rates.

VoCare Cellular Connectivity

VoCare Cellular Features

The VoCare Vitals360® is pre-configured with a 4G LTE global SIM. Vital reading date can be reported in any location with Cellular or Wi-Fi service. The standard Vitals360® LTE plan includes 50MB data for even the busiest daily hospital use. Organizations utilizing the Vitals360® for video teleconferences will require a larger data plan. Cellular connectivity is used in conjunction with Wi-Fi for data submission of Vital readings along with location based check-ins and device diagnostics.

The Aeris Network Keeps Customer data secure.

With the Aeris network we Improve security for you and your patients.

Aeris network provides additional protection against misuse, unauthorized access, and cyberattacks. Integrated intelligence within the network continuously learns device behavior patterns, evaluates risks associated with every traffic data flow, and actively protects, detects, and responds to evolving threats.

Global Connectivity. Anywhere, Anytime.

Aeris Communication is a VoCare technology partner with a proven history of helping companies unlock value through IoT. Built from the ground up for IoT and road tested at scale, Aeris IoT Services are based on the broadest technology stack in the industry, spanning connectivity up to vertical solutions. As a strategic partner Aeris assists VoCare to implement and manage complex IoT communication solutions simpler.

With our partnership we chose the most intelligent network for superior connectivity. Built from the ground up, the Aeris IoT Connectivity Network offers unmatched coverage, intelligence, and security.

With next-generation Medical solutions rapidly integrating into products across the globe, your customers and partners expect seamless connectivity and access to IoT intelligence.
